beyond K-12

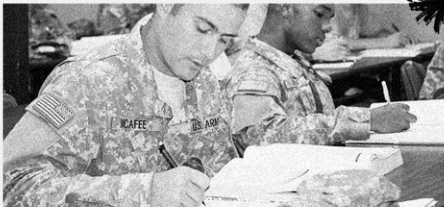

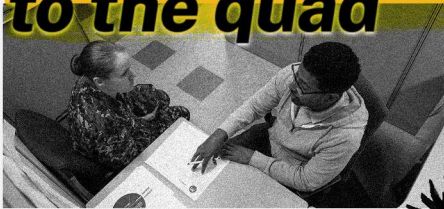

guiding lights

A high school guidance counselor helps seniors make better college choices by using the **Integrated Postsecondary Education Data System** to show which colleges have the highest graduation rates.

from the squadron to the quad

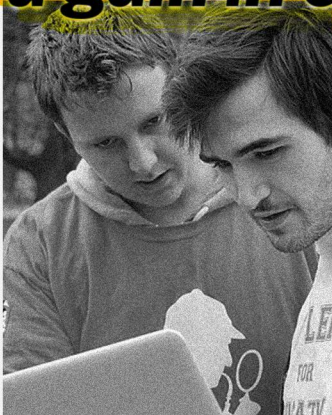

A transitioning military servicemember uses IPEDS data in the Department of Education's **College Navigator** to find a college that will give credit for military training and has a vibrant student veteran community.

can't learn on an empty stomach

A community college establishes a pantry for its students after the **National Postsecondary Student Aid Study** found that 1 in 4 community college students experience food insecurity.

a gain in education

Deaf college students can access services like ASL interpretation and real-time captioning due to advocacy informed by **American Community Survey** data on degree attainment gaps.

the bad news

all of these datasets are at risk.

the good news

resources like EssentialData.US help make the case for how federal datasets benefit American lives and livelihoods
